FALCON+® RED™

Mail Opening & Scanning Designed to Eliminate Prep

WHY THE FALCON+® RED™?

Easily handle peak mail volumes and labour challenges with the OPEX Falcon+ RED document scanner with integrated mail opening and extracting capabilities. Using the Falcon+ RED, mailroom operations process incoming mail as soon as it is received, directly out of the envelope. Open a variety of envelope types and scan a wide range of document sizes, thicknesses, or conditions while producing high-quality images and usable data in seconds. Only requiring one operator per system, the Falcon+ RED mail scanning platform eliminates prep work, pre-sorting, and manual processes, resulting in reduced labour costs and improved productivity. It provides one of the fastest ROIs on the market.

FEATURES

UNIVERSAL DOCUMENT FEEDER

The Falcon+ feeder reduces the need to prepare documents prior to scanning, which enables documents to be fed as both single pages or in stacks of intermixed weights and sizes.

CERTAINSCAN® SOFTWARE

OPEX® CertainScan® allows for customized scanning jobs, identifies page types within a job, and automates many traditional document prep activities - all while integrating with your software.

INTEGRATED MAIL OPENING AND EXTRACTION

The Falcon+ Scanner easily integrates with the Rapid Extraction Desk (RED) for easy mail opening, extraction, and scanning on a single platform. Open a wide variety of envelopes and feed the contents directly into the scanner to create high-quality images.

ENHANCED MULTI-FEED DETECT

Seven strategically placed Ultrasonic Multi-Feed Detectors (MFDs) recognize double feeds, sticky notes and turned corners anywhere on a page and notifies the operator, helping produce the most accurate scanning results in the market.

ADVANTAGES

EFFICIENCY AND FLEXIBILITY

The Falcon+ can easily process anything from thick paper to onion skin to fragile or damaged pieces, without pre-sorting. It can process envelopes and file folders, receipts, and other small pages without taping or copying. It can even handle X-rays and three- dimensional objects with ease.

ENHANCED SORTING CAPABILITIES

Available in configurations of three or five programmable sort-bins, the Falcon+ provides versatile and unique sorting abilities. With expanded bin capacity, the Falcon+ allows for a nearly unlimited batch size. All Falcon+ models are equipped with an additional pass-through bin, ideal for thick and delicate items.

ONE-TOUCH SCANNING

Falcon+ document scanners eliminate virtually all prep, paper handling and manual tasks to ensure a safe, fast, and accurate document transformation process.

SUPERIOR SECURITY AND DOCUMENT INTEGRITY

In today's world of heightened data security and compliance, One-Touch Scanning ensures efficient, safe, and secure document transformation that makes sense, guarding against costly data breaches.

OPEX FALCON+ RED

SPECIFICATIONS

PHYSICAL DIMENSIONS (HxWxD)	
Falcon+ RED	55" x 111.10" x 41.60" (139.7 cm x 282.194 cm x 105.66 cm)
FalconV+ RED	61.60" x 111.10" x 42" (156.46 cm x 282.2 cm x 106.7 cm)

ADDITIONAL SPECIFICATIONS	
Scanning Speed	Up to 120 ppm (letter)/115 ppm (A4) @ 300 dpi
In-line Recognition	OCR, OMR, barcodes, document type ID
Document Feeding	High-capacity auto feed, continuous drop feed, packet feed, rescan feed
Daily Duty Cycle	Unlimited
Media Detection	Multi-feed detection, height, length, skew and envelope detection
Bundled Software	CertainScan® 64 bit host software, CertainScan® Edit™, CertainScan® Transform™, OPEX standard barcode package, Windows 10 64 bit

DOCUMENT DIMENSIONS	
Length	3.5"-25.50" (8.89-64.77 cm)
Width	2.0"-12" (5.08-30.48 cm)

STANDARD FEATURES

- Automatic page classification
- Automatic de-skew
- 7 Ultrasonic Multi-Feed Detectors
- 600 dpi capture
- Thick document sorting
- 3 or 5 programmable sort bins
- Mixed document capture
- 22" touch-screen display
- Wireless keyboard/mouse
- Packet-sensing technology
- Early envelope detect
- Multi-Function ID Assist™
- Reference ID
- Top Bin Mirror
- TMD override

OPTIONAL FEATURES

- External digital capture
- MICR/MICR+ (US Only)
- Mobile Work Surface
- 1D and 2D Barcodes
- ScanLink API
- VRS* Technology
- Key Assist™
- Bankers Box Cart
- Audit trail printing (front & rear)
- Rear graphics printer for signature and code 39 barcode printing
- CertainScan® Edit™ and CertainScan® Transform™ on external PC

*VRS is a registered trademark of Kofax, Inc.
